What We Use

A one-step, quaternary-based disinfectant cleaner concentrate providing broad spectrum disinfection at 1:256 dilution. Use in healthcare and other facilities where cleaning and prevention of cross-contamination are critical. Bactericidal, virucidal and fungicidal. Kills MRSA and VRE. Meets blood-borne pathogen standards for decontaminating blood and body fluids. Blue in colour with a minty scent.

Oxivir Five 16
– Disinfectant Cleaner

Virex II 256 – Disinfectant
Cleaner & Deodorant

Oxivir Five 16
Concentrate

Oxivir 1
– Disinfectant
Cleaner

Oxivir 1
Wipes

Kills microorganisms including HIV-1, VRE, MRSA, GRSA, MRSE, VISA, PRSP, Herpes Simplex Types 1&2, Influenza Type A2, Adenovirus, Rotavirus and many more

Kills the organisms that cause odors and works as an odor counteractant to further eliminate odors not associated with bacteria.

Highly concentrated quaternary formula provides excellent one-step, cost-effective cleaning and disinfection

EPA Approved

FDA Approved

How We Use

ULV Fogger

ULV fogger disperses superfine droplets in air which settle and disinfect surroundings with limited moisture exposure. Safe for indoors esp. Electrical panels and equipments

Mechanical Sprayer

Handy and portable gadget which disperses micro droplets ensuring consistent disinfection

Automatic Sprayer

Efficiently disperses micro droplets ensuring vast coverage with precise disinfection

Thermal Fogger

Creates dense fog efficiently covering open fields and spaces

Manual Wiping

Designated wiping with disinfectants and microfibre towels for super sensitive and frequently touched surfaces

We care

Safety

- ❖ FDA Approval ensures non-hazardous impact on humans
- ❖ Virex II 256 leaves interiors with minty fragrance
- ❖ ULV fogging of Virex II 256 doesn't require post disinfection cleaning
- ❖ One step solution for all microbes and infections

Prevention

- ❖ ULV generated super fine droplets are safe for electrical appliances / plants / machines
- ❖ Critical electronic gadgets are masked during fogging
- ❖ Masked areas are wiped and disinfected using microfibre towels

Surface Area

HIGHLY TOUCH SURFACES

- ❖ EPA certification ensures zero environmental damage
- ❖ Virex II 256 is commonly used in most critical and sensitive areas like Operation Theatres in healthcare
- ❖ Virex and Oxivir are neutral to flooring, surfaces, upholsteries, carpets, ceiling, wall papers etc.

Need of disinfection

Why you need it

- ❖ Eliminates / controls microbial infection spread
- ❖ Provides confidence in stake holders for the workspace security
- ❖ Spread of infection is highly likely with current Corona Pandemic
- ❖ Especially when 80% of COVID-19 carriers are asymptomatic (condition of a person producing or showing no symptoms)
- ❖ Virus and bacteria spread grows exponentially and only way to safeguard our physical spaces is by treating them with EPA Certified disinfectants

Why we are **different?**

Inspect
your premises and

disinfection and
safeguarding

WE

Understand
your need

Maintain
long-term
effectiveness of
treatment with
training and visual
tools

Disinfect
given space with
Globally certified agents
and equipments

We offer

Need of disinfection can occur due to incidental occurrence or repeated precaution against microbial spreads in given premises. Hence, we offer both **"ONE TIME TREATMENT"** and **"GGP PROTECTION PLAN"**

One Time Treatment

One Time Treatment is where our team disinfects the said premises after evaluating the most efficient and effective solution. One can book this service as and when needed.

GGP Protection Plans

Fixed Protection Plan

- ❖ We depute an expert in premises permanently working for 8 hours per day
- ❖ GGP Disinfection Kit is bought and exclusively stored at your premises for daily usage
- ❖ Daily fogging, spraying in premises by in-house expert during "after working hours"
- ❖ Hourly wiping of frequently touched surfaces with disinfectant and microfibre towels
- ❖ Integrated and strategic visual communication tools to spread awareness on social distancing etc.

Flexi Protection Plan

- ❖ We offer weekly, bi-weekly, fortnightly and monthly treatments at subsidised rates
- ❖ Suitable for places with low traffic of visitors like warehouses, godowns, farmhouses, holiday-homes etc.
- ❖ Repeated treatment ensures efficient safety and cost savings as well
- ❖ Integrated and strategic visual communication tools to spread awareness on social distancing etc.
